It has been a fantastic experience to participate in NEVZA U17 in Denmark as a referee. I have thoroughly enjoyed every minute and tried to gain as much as possible from this opportunity in order to better myself as a referee. Apart from officiating official international matches of high level, I had a chance to meet and talk with some of the most experienced international referees.

It was those long evenings after the games where we would discuss and share views on various aspects of the refereeing that I have enjoyed the most and consider them to be one of the best learning experiences possible. Being appointed as a first referee for the girls semi-final and as a second referee for the boys final was my personal highlight and I have been very proud to be able to represent Volleyball England in this way.
