

Referee Uniform Updates

With the relationship that Volleyball England has struck with Mizuno, Referee Commission has decided to change the Referee Uniform from Errea to Mizuno. Whilst negotiations are still taking place regarding price and distributor, we are hoping for a discounted launch price for all those who attend the Referee Conference in June. More information will follow.

Once agreed Grade 2 referees and above will be expected to wear the new Uniform from September 2016, and, as in previous years, a period of grace for a change-over has been agreed. All officials involved in National League matches should be wearing the new kit from September 2017.

Referee Commission in consultation with the marketing department of Volleyball England have also decided to not to continue with a specific referee badge and simply go with the Volleyball England Logo.
